

# Mobile control keyboard

Small size, 22 buttons, suitable for patrol cars, buses, application software and other small systems to use. Four-dimensional operation joystick (3-axis and 1 button), so that a smaller volume to achieve more functionality. Specifically for the use of cars, low power consumption.

## Technical Specifications

Operation Mode	Joystick, button
Joystick	4-dimension joystick (3-axis and 1 button)
Button	22 buttons
Indicator Light	9 buttons (8 button lights + 1 power indicator light)
Secure Mode	Just put it on the flat ground to use (anti-slippery)/bracket
Power Protection Circuit	Misconnect power positive and negative end will not result in device damage.
E-Lock	1
Communication Port	1 USB port
Storage Port	2 USB ports. 1 SD slot
Extension Port	1 RS232 port, 1 RS485 port
Input Voltage	DC 5V±5%
Power Consumption	≤1W
Net Weight	560g
Working Temperature	-30°C ~ +70°C
Dimensions	170mm×125mm×34mm
Working Humidity	0%~90%
Air Pressure	86kPa~106kPa
