

Faceplates & Accessories

Office Faceplates

Connectix Office Faceplates are available in compact depth, single and dual gang versions, and have been designed to fit all industry standard modules. The Office plate with a sleek curved brow is available for high end applications.

All Connectix faceplates are supplied with fixing screws and come finished as standard in an attractive high gloss white. Grey faceplates are also available if a high contrast is required between the mounting surface and the outlet (as specified in the Disability Discrimination Act). Connectix backboxes are available in single and dual gang with a choice of surface mounted and flush mounted dry lined wall versions. Surface mount boxes feature knock outs for mini trunking adaptors.

Dry lining wall boxes are suitable for mounting into 6-14 mm thick board and can easily cope with irregular shaped aperture sizes. Swivelling snap out clamps will grip any standard thickness of building board tightly.

Features and Benefits

Faceplates

- Compact depth
- Single or dual gang option
- Industry standard size
- DDA (Disability Discrimination Act) compliant grey option available

Backboxes

- Tough shatter resistant material
- Designed for ease of use
