Pro Surveillance Tower (2.3m) - Viper NDAA

Compact by design, the unique 2.3m-Mini Tower is a user-friendly and compact rapid deployable CCTV tower. Versatile and lightweight enough to fit in any space (indoors or outdoors), the 2.3m-Mini Tower is easily manoeuvred into position and designed to be deployed on-site within 15-20 minutes. A great standalone solution, or a fantastic addition with the 6m PRO Surveillance Tower.

Specification

- Compact by design - collapsible galvanised mast (reduces for transportation)
- Powder Coat finish in RAL9003 White (semi-gloss) as standard
