

Flexibility at the core

- Two operating modes: Scenario Trigger and Fire Alarm
- In-app configuration of programmable actions
- Visual alarm verification using MotionCam detectors or any video camera connected to Ajax NVR
- Alarm delivery to CMS

Flawless hardware

- Simplified button mechanism reduces the risk of failure
- Up to 7 years of autonomous operation with pre-installed batteries
- Transparent protective lid prevents accidental alarm activation
- Tamper alarm

Smart and complex ecosystem

- Regular polling of the device to display current statuses in apps
- Automatic self-diagnosis with state reporting to the hub
- Up to 1,700 m of wireless communication and twice as much with a range extender
- Instant maintenance notifications

Quick installation and setup

- SmartBracket panel to mount the device: no need to disassemble the enclosure
- Lock to secure the device on SmartBracket
- Special tool (key) to reset the button after alarm
- Pairing with a hub via QR code
- Remote control and configuration in the app

Superior, Fibra, and Baseline product lines are mutually compatible. This opens up numerous possibilities for building systems of any configuration.
