

# PFA120-SL

Junction Box

- Aesthetic design.
- Material: SUS316.
- Junction box.

## System Overview

This wall mount bracket series is designed for the SD60 series, which supports the plane mount of SD60. And this bracket can be used in salt-spray environment.

| Technical Specification |                                                                                                                                                                                                                                                                                                 |

| Material                | SUS316L                                                                                                                                                                                                                                                                                         |
| Product Dimensions      | 121 mm × 166 mm × 47 mm (4.76" × 6.54" × 1.85")                                                                                                                                                                                                                                                 |
| Packaging Dimensions    | 256 mm × 196 mm × 143 mm (10.08" × 7.72" × 5.63") (L × W × H)                                                                                                                                                                                                                                   |
| Weight                  | 2.59 kg (5.71 lb)                                                                                                                                                                                                                                                                               |
| Load Bearing            | 25 kg (55.12 lb)                                                                                                                                                                                                                                                                                |
| Operating Temperature   | −40 °C to +60 °C (−40 °F to +140°F)                                                                                                                                                                                                                                                             |
| Humidity                | <90% (RH)                                                                                                                                                                                                                                                                                       |
| Installation            | Junction box                                                                                                                                                                                                                                                                                    |
| Anti-corrosion Level    | Moderate Protection<br>*The products feature high-grade anti-corrosion protection, making them well-suited for environments with standard corrosion resistance requirements. They perform reliably from 2 km (1.24 mi) and above in coastal areas and in locations prone to acid rain exposure. |
